THEIR LITTLE GAME.

Democrats Scheming to Get the Silver Question Resuscitated.

The Director of the Mint's Report Show ing the Imports and Exports of Gold and Silver and Total Products.

By Telegraph to The Times.

Washington, Feb. 20.—Representative Livingston of Georgia is preparing, and will probably introduce during the day, a bill on the lines of the understanding reached yesterday at the conference between Senator Carlisle and seventeen Democratic members of the House, representing all the various elements—except the radical free-coinage men-of the party on the silver question.

The understanding reached, some of those present say, could not be called "a definite agreement," but was to sus-pend silver purchases and to reserve sufficient silver to provide for the re-demption of outstanding notes issued in payment, for silver, and then coin the remainder, representing the "profit" or difference between the purchase price and the coin value of the silver heretofore bought. After this was done silver purchases are to be resumed, unless there is new legislation on the subject meanwhile. The profit amounts to about \$47,000,000, so that it will take sixteen months to coin

WILL FIGHT THE SCHEME. . The out and out free-coinage men announce they will fight the proposition

to the death. The anti-silver men claim by this compromise to have caused some men to so change their views as to turn the scale in favor of the cloture, provided they could first get another report from the Rules Committee, and then hold the votes they obtained the last time. Mat-ters have not yet assumed definite shape. The proposed measure is to be ent to the Banking Committee.

REPUBLICANS WILL NOT SUPPORT IT. The bill was shown to the Republicans by Tracy of New York, and they were asked if they would support it. Nearly all the Republicans who voted with the anti-silver men the last time replied they would not do so. It there-fore seems likely the silver bullion purchase act cannot gain the votes neces-sary to its passage, as the free-coinage Democrats say they will refuse to vote for it, and the Republican defection for it, and the Republican defection more than offsets the Democratic gain made as the result of the conference. One proposition which found considerable favor in the conference and in the House among the free-coinage men provided for the coinage of the bullion row in the treasury and the bullion now in the treasury and the reënactment of the Bland law, but Mr. Williams of Massachusetts and other gold men refused absolutely to vote for any measure providing for further silver purchases in any amount.

MINT DIRECTOR'S REPORT. The annual report of the Director of he Mint for 1892 shows the value of the gold product of the United States to be \$33,000,000, about the corresponding average of recent years. sponding average of recent years. The product of silver is 58,000,000 ounces, of the commercial value of \$50,750,000 ounces, from the preceding year. The amount of silver purchased by the Government during the year is \$5,129,827 fine ounces, costing \$47,394,291, an average of \$7\% cents per fine ounce. From it 6,338,245 silver dollars were coined desired to the reason. during the year.

GOLD AND SILVER IMPORTS AND EXPORTS The imports of gold and silver aggregate \$18,165,056, and exports \$76,735,592, a net loss of \$58,5 70,586. 735,592, a net loss of \$58,5 70,536. The silver imported is \$31,450,968, and exports \$37,541,301. The amount of money in circulation, exclusive of the amount in the treasury, was \$1,611,-321,753 January 1, an increase of \$18,928,124 during the year. There was an increase of over \$12,000,000 in the gold product of the world during the last calendar year. Of this, \$2,509,000 was from Australia and over 500,000 was from Australia and over \$9,000,000 from South Africa. The total silver product of the world was increased about 7,650,000 ounces, occasioned chiefly by the increase of 4,600,000 in the product of the Mexican mines and 2,400,000 of the Australian.

THE PANAMA INVESTIGATION. Chairman Thompson Testifies About Canal Affairs.

TERRE HAUTE (Ind.,) Feb. 20.—[By the Associated Press.] The Panama Congressional Investigating Committee arrived here this morning and began taking the evidence of ex-Secretary of the Navy Thompson in private. Thompson is in better health.

The ex-Secretary first detailed the circumstances of his resignation, saying was publicly done, and further that he had met no opposition from President Hayes when he approached him regarding the matter. The first offer of the American chairmanship was made to him by Jesse W. Seligman in 1880, and was not accepted until he had a full conference with a friend and the President of the Presi conference with a friend and the Presi-dent and the determination on his part that there was nothing in it inimical to the interests of the United States. He denied that Hayes's administration was opposed to the canal, but did want is under American control. He had the idea, when he accepted the chairman-ship, of Americanizing the affair, and tried to get an American construction company to build it. The entire ad-ministration, as far as he knew of the affairs of the American committee, was conducted on the strictest business principles.

NO LOBBY AT WASHINGTON.

He did not know what were the duties of the three banking houses, whose representatives were members with him of the American committee and he was as much surprised as the committee when he learned within the week that the three had been getting \$50,000 a year, or twice his own salary, for their services in this country.

Col. Thompson denied that the Panama Canal Company had a lobby at Washington either to procure favorable legislation for the Panama Canal or to fight the Nicaragua people, and he said he kept clear of lobbyists, and that there was no improper expenditure of money as far as he was aware. Col. Thompson said that when the Nicaragua treaty was before the Senate all he did was to write a pamphlet against it, which he placed in the hands of all Sen-ators. Senator Voorhees only knew he wrote it. He did not sign his name to it, because he did not want the Panama Canal antagonized, so he had it appear anonymously. The Senate defeated the treaty.

CORRESPONDENCE WITH DE LESSEPS. The committee brought with it a letter-press copy of all correspondence be-tween Thompson and De Lesseps, and the witness was asked about a number of letters. One of them was from Thompson to De Lesseps in February, 1885, and said: "It is difficult to convey to you a full understanding of how we have conducted this contest, and we

must be very cautious."

Congressman storer of Onio read from the letter in which the Colonel told De Lesseps he believed a large expenditure of money for materials in this country would help to popularize the canal, which belief he emphasized today. In another letter he referred to "overcoming difficulties." This, he said, meant such difficulties as Nicaragua people were responsible for, but in that nothing but lightimate means were used in doing so. He denied that any money had been spent with his knowl-edge to influence newspapers.

THE SUNFLOWER STATE

The Governor Explains the Late Troubles in Kansas. TOPEKA, Feb. 20.-|By the Associated

Press. | Gov. Lewelynl this afternoon gave out a statement, which will be used in this week's issue of the Populist papers:
He says: "The Republicans boast of

having carried the fight, but the fact is the Populists have never lost sight of the central idea in the contest, and which is the preservation of the Populist House. It was to destroy this House that the Republicans made the fight, and they have failed. Had they succeeded it would have thwarted all reform legislation. They know the laws passed by it (the Populist House) are valid; that to declare otherwise the Supreme Court would have to vise all respectable precedents at partisan demand, and face a wave of public indignation unparalleled since ther notorious Judge Trescilian was followed to the scaffold by an out-raged people, who exulted at his just but shocking execution. Corporate greed seems determined to prevent the enactment of reform measures by

the Populists." The Governor then goes on to enumerate the acts of the Republican House, which, as he stated, were intended to extinguish the House of the Populists, beginning with the attempted arrest of its chief clerk, and to be followed by the arrest of enough Populist members to break the quorum. This, he adds, did not succeed, and though the Republicans succeeded by a compromise dividing the Populists from the hall, their organization is still intact. Even this, he continues, was only brought about through the disloyalty of the militia and the county Sheriff. He declares the militia has been recruited and doctored to this, end been recruited and doctored to this end for two years. In conclusion he says: "The unmasking of Republican treason. perjury and lawlessness richly compen sates the Populists for all the indigni-ties they suffered."

FICTITIOUS ASSETS.

The Discovery of Them Causes a Sensation.

FALL RIVER (Mass.,) Feb. 20,—|By

the Associated Press. | Extraordinary revelations and charges were made to day at a special meeting of the stockholders of the Crescent mills. It was discovered recently that fic-

titious assets were written in the books by Treasurer Warren. He now confesses he did it in the hope of keeping his place by showing enough assets to overcome increasing liabilities consequent on losses by manufacturing. Several stockholders scored the officials severely, and it was finally determined to offer the property for sale to the highest bidder.

NEW ORLEANS, Feb. 20 .- [By the Associated Press.] Gen. P. G. T. Beauregard, one of the last of the generals of the Confederate military service, died tonight.

The first symptoms of fatal illness manifested themselves two weeks ago, when he was attacked by a complication of diseases, which threatened heart failure. He manifested some improvement under physician's care, particularly in the last three or four days, when he was able to leave his apartments and take short periods of exercise in the grounds of residence. He dined with his family this evening and remained in the library until 9:30. He then went to sleep easily and seemed to be resting well. One of the nurses went to the bedside a few minutes after 10 o'clock and was horrifled to find him in a

death struggle.

Members of the family were summoned at once, but before they reached the chamber the end had come.

The direct cause was heart failure.
The funeral will be held on Wednesday.
Despite his advanced age, 75 years,
Gen. Beauregard had led a life of considerable activity almost to the hour of his death.

The Struggle Over,
BISMARCK (N. D.,) Feb. 20.—W. N. Roach (Dem.) was elected United

New York, Feb. 20.—[By the Associated Press.] A letter written by President Abbott, of the Wisconsin Central Railroad, addressed to President Oakes of the Northern Pacific Railroad, was

made public today.

It is in reply to the report of the special committee made public on Satur-day. It is in refutation of the statements made about his company. Ab-bott says the authorship of the so called report is thinly disguised. "Its tone and style betray the hands of a member of the committee who formerly was on the Northern Pacific board, and failed in 1889 to keep his place. He, doubt-less, attributes his defeat to Wisconsin Central influence, and this belief ex-plains his inability to see anything good in the Wisconsin Central, past, present or future."

Senator Gorman's Views on the Financial Situation.

The New York and New Jersey Bridge Bill Passed by the House-Nicara gua Financial Stories Officially Denied.

By Telegraph to The Times. WASHINGTON, Feb. 20.—[By the Associated Press.] Senate.—Senator Gorman, in some remarks in which he made in the Senale today in opposition to the appropriation for public buildings,

spoke of the serious and alarming condition which confronted the country. He expressed the belief that only the borders of the trouble were touched, and that extraordinary action would have to be taken by the Treasury Department, or else Congress would have to reassemble before next July to meet

the condition. His warning did not prevent the Senate from agreeing to all the amendments offered making appropriations for increasing the limit of cost of public buildings. The only yea and nay vote taken showed all the Republican senators except Mr. Sherman in the af-firmative, and all the Democratic sena-

tors except Vest in the negative. The Sundry Civil Appropriation Bill occupied the Senate throughout the day. The House bill to provide for the publication of day. The House bill to provide for the publication of the eleventh census passed. The House bill to limit the jurisdiction of District and Circuit courts of the United States was reported back

adverselv. Mr. Hansbrough presented concurrent resolutions of the Legislature of North Dakota for a constitutional amendment to have United States senators elected

by the people. During the consideration of the Sundry Civil Bill, among other things, Mr. Wolcott moved to reduce the amendment for topographical surveys from \$200, 000 to \$100,000 and advocated the eological survey. If any one exam ined the geological map of the United States he would find the topographical surveys distributed politically, and no too logically. The survey had already expended over \$7,000,000, and, at the rate the work was carried on, would take thirty-eight years to complete the topography alone, and as to the geological part, no man could figure out it completion within a century, nor its cost within anything like a hundred million dollars. After a long discussion Mr. Wolcott's amendment was rejected.

Mr. Quay moved the amendments which were agreed to, fixing the limit of the cost of the public building at San Francisco at \$3,000,000; at Portland, Or., at \$1,000,000. After an executive session the Senate adjourned.

READING'S FOES.

They Rout Their Opponents Horse, Foot and Dragoons.

NEW YORK, Feb. 20.—[By the Associated Press.] The great battle between the masked foes of Reading and its defenders continued throughout the day, but the latter were routed, horse foot and dragoons. The opening provided a spectacle such as has been seldom or never witnessed on change. When business opened half of the brokers of the exchange were present, and the moment business commenced huge blocks of Reading were thrown on the market, and inside of twelve minutes the price had been ham-

mered down 6½ points, making a total of decline since the downward movement began, of 16½ points. FRANTIC BROKERS. Pandemonium reigned. There was a wild, struggling mass of panic-stricken humanity. Brokers jumped, roared, yelled, gestionlated, and literally tumbled over each other in their wild efforts to unload. The stock was thrown on the market in blocks of from one thousand to eleven thousand shares at a time, and snatched up by the bears at panic prices. In the first ten minutes Reading dropped from 86 to 29 1/4. and then rallied to 311/4. Northern Pacific also dropped away in a panicky fashion. This was due to the tion of a report to the stockholders' examing committee, calling attention to the extravagance and mismanage-

ment of the directors. No failures were reported up to noon. THE CAUSES ASSIGNED.

The terrific strain was too great for many firms, and shortly after noon failures began to be announced. The first to go was W. F. Russell, then T. J. de Laney and next G. S. Fleet. The adoption of an amendment giving what Laney and next G. S. Fleet. The he called "a peculiar history of the amounts of their liabilities are not large. The cause of the weakness in Reading is believed to be the attitude of the Vanderbilts and Banker Morgan toward the Reading people for having contemplated entering their territory. Another reason given is that Speyer & Co. have called in a loan made to the Reading Company last January.

During the afternoon there was quite a pronounced tendency to rally, and some stocks made marked gains, but the rumored application for a receiver, which was again revived, brought an-other flood of selling orders, and Read-ing dropped to 28. When it was further reported, however, that a receiver had actually been appointed, it rallied to 30. The first sale of Reading was made at a loss of 8% from Saturday, and it then quickly de-clined one point more. Stocks of roads allied to Reading were also hammered.

Similar Bills to Be Filed.

PHILADEIPHIA, Feb. 20.—The security of each receiver was fixed at \$500,-000. It is said a similar bill will be filed at Trenton, N. J. The bill in equity says the complainant brings his bill in behalf of himself and all holders of bonds of a like charactes. The bill, which is extremely lengthy, divested of legal verbiage, sets forth the issuing by the Reading Company in January, 1888, of third preference income mortgage bonds, the amount of which is now in excess of \$25,000,000, to be payable in January, 1958, and with interest payable out of the net earnings of the railroad company of 5 per cent. per annum, payable the 1st of February each year: the bonds being secured by a cerbill in behalf of himself and all holders year: the bonds being secured by a cer-tain mortgage, executed by the Reading road and Reading Coal and Land Com pany to the Pennsylvania Company for insurance on lives and granting annuities. This mortgage conveyed, subject to certain prior encumbrances, all the properties leased and controlled by the Reading Company, and those it might thereafter acquire; also the properties of the coal and iron company.

CAUSE OF COMPLAINT. Platt sets forth that he is a holder of a large amount of these bonds, the interest upon which became payable on the 1stday of February last. Demand was made by the complainant on the failroad company to pay him, and the said amount was refused, and the company amount was refused, and the company has failed up to the present time to pay him any portion of the amount, which became due and was payable the 1st of February, and the interest upon the other bonds of said issue held by other owners remains unpaid. The Pennsylvania company has refused the himself. vania company has refused, the bill avers, to proceed in equity to foreclose mortgage. The bill sets forth a great income can be derived from the operations of the Reading Railroad and Coal and Iron Company and it would be disastrous should the business of either be temporarily sus-THE COMPANY ABLE TO PAY.

A large amount of income is now in possession or under the control of these companies, and it is justly applicable to panies refused to appropriate this income to such payment and threaten to apply the same to the payment of unsecured indebtedness. The bill asserts that the companies, though possessed of ample funds, if judiciously administered to manual indebtedness. panies refused to appropriate this in of ample funds, if judiciously adminis-tered, to pay all indebtedness, are insolvent in the sense that they are with out funds in the shape of cash or assets convertible into cash sufficient to pay their indebtedness actually matured or mature in a short time. The sets forth the vast extent and value of the properties, and says the railroad company owns all the stock of the coal and iron company, and that the operations of the two depend largely upon each other. There is imminent danger, the bill asserts, of the property being levied upon and at-tached and disintegrated, to the irreparable injury of the creditors, unless the court takes action. The present condition of the company is stated to be largely the result of the demands of loans, for which ample security is pledged with lenders, but which loans the holders thereof are at present unwilling to renew. The complainant prays that the rights of holders of third preference bonds be defined; that the Pennsylvania Company be required to institute proceeding; that receivers be appointed, etc.

A NIGGER IN THE FENCE. President McLeod said this evening he would prepare a statement, but did not say when. President Earle of the Finance Company of Pennsylvania, and commercial agent for the Reading road, said this evening that the Finance Company has from \$8,000,000 to \$10,-000,000 worth of Reading coal on hand upon which no advances have been made. This amount, he declared, was enough to yay the Reading's floatwas enough to vay the Reading's float ing debt twice over. The present diffi-culty, he said, is due to everybody de manding his money at once, which was unnecessary, for the company was able

THE READING AFFAIR.

An Alleged True History of the Struggle for Control.

Boston, Feb. 20.—|By the Associated

Press.] An interesting story is given out by the Boston News Bureau as the true history of the Reading affair. It seems that, after Charles O. Par-

sons had developed the New York roads in northern New York into the Rome, Watertown and Ogdensburg system, J. Pierrepont Morgan went before a directors' meeting of the New York Central and asked them if they were aware at what little cost a new system could parallel the New York Central and connect with Fitchburg at Al-bany. They were startled and bought bany. They were startled and bought Parsons system to keep it from possi-ble connection with the New England. A few months later Parsons appeared in the New York and New England. Morgan then went to the New York, New England and Hartford people and told them to pinch Parsons all they could, and not allow him to build up, as he did against the New York Central. M'LEOD IN THE PIELD.

A "pinching" policy was inaugurated forthwith, but suddenly McLeod, of the Reading, appeared on the field and an-nounced he had purchased control of the New York and New England interests for his company. Parsons and almost everyone else refused to believe asked McLeod to turn the control over to him. McLeod to turn the control over to him. McLeod refused, and preparations for war immediately began on both sides. Morgan got all his companies into shape, so they could not be disturbed by commentees in the control of the the this, but Morgan was convinced, and disturbed by commotions in the money market. McLeod locked up control of the New York and New England, and his friends immediately began selling their Reading stock, and some Reading people have scored a handsome profit by being short of Reading in the

STATED READING STRONGER THAN EVER. The result is that the McLeod party is in a position today to buy back all the Reading they sold and more; the stock is worth intrinsically \$10 per share more than ever before. Its property and holdings are among the best in the country. The conspiracy against Reading's finances will be checkmated Reading's manners win be checked by the receiver in the interests of the company. Of course it is Pennsylvunia, Vanderbilt, Wagner and Drexel-Morgan nterests against the Reading, Pullman nd New England interest. The Readng people today are stronger than most cople imagine.

"IS A SMART MAN." Russel Sage said McLeod, president of the company, is a smart man, and believed he had the support of the people holding Reading stock. The total amount lost by the stockholders in the Reading since February is estimated a

AN ENORMOUS BUSINESS.

The Reading President Said the Receivership Was Necessary.
PHILADELPHIA (Pa.,) Feb. 20.—[By the Associated Press.] President Mc Leod of the Reading Railroad Company, in an interview tonight, said he sorry they had been driven to the neces sity for a receivership, but it was the only thing to do. Their credit was attacked in a way that made it impossible for them to meet obligations, and they had a receivership established before the property was further injured. They were doing an enormous business on a small capital, and when the attack was made it hurt their credit so that they could not borrow money.

It is realized that from the heterogeneous character of the population of the islands, and the general tendency of the native element to revolution, that to peacefully maintain American sovereignty over the islands there must be a proper display of military from the time that appeared to the seconds. time that annexation becomes an established fact. In this connection the advisability of sending troops of the regular army to the islands is being informally but seriously discussed many of the army officers.

AN AMERICAN GARRISON SUGGESTED. The navy people, as a rule, believe that sailors and marines should be utilized for the purpose, but are forced to admit that, by reason of the limited number of naval vessels at hand, it might be advisable to send several bat-teries of artillery from Ualifornia to remain at Honolulu until some of the new vessels can be sent from the At-lantic Coast. Under a permanent form of government, to be established by legislation, it is suggested that there should be a standing army organized from the inhabitants of the islands, officered by Americans. It has been further suggested there should be detailed, when the United States has established the pro-United States has established the proposed coaling station in Pearl Harbor, an American garrison to defend the entrance to the harbor.

ness. Legislation in favor of an appropria-

tion for San Pedro Harbor does not

progress as rapidly as it might at

Washington, and a private letter

which was received here yesterday

from one who is posted in what is happening in Congress gives a hint of the

reason why. From the letter it ap-

pears that the Senator from Santa

Monica, who represents Nevada, in

conjunction with the Senator from Or-

egon and the Senator from Maine, has

determined to delay the matter or kill

it entirely. From the letter referred

menced immediately.

It is an outrage upon the people of Los Angeles and Southern California that a

Senator representing a small and unimportant State like Nevada should be able during all these years to defeat the express wishes of the people of Southern California, and retard the growth and development of their material interacts by

ment of their material interests by cor

stantly defeating or postponing a great harbor improvement, which, if consum-

mated, or even begun, would give an im-petus to the growth and prosperity of Los Angeles and Southern California that can

hardly be estimated.

I understand that it is now the purpose of the Senator from Maine and the Senator

from Nevada to organize a junketing trip, whereby these gentlemen may visit the Pacific Coast and narbors of San Pedro and Santa Monica, and determine in their own minds which of the two is the better. This, particularly of the two is the better.

notwithstanding there is in the United States Engineering Corps of the War Department five different reports, covering a period of the past fifteen years, all of them favorable to San Pedro. Yet these gentless the past of the past fifteen years are self-environment.

men propose to become self-appointed judges and make a personal examination

of these harbors, ignoring all soundings, measurements and scientific information gathered at enormous expense and labor. All that goes for nothing in the opinion of these wise Senators. But this is all humburg, the worst kind of deception; what they are striving for is delay, and, if they succeed in having an appropriation, for a

succeed in having an appropriation for a junketing trip, with authority to make ex

aminations, etc., that will give them con-trol of the case, and, by dint of senatorial courtesy, they will be able to hold back their report until late in the session; or,

by some hocus pocus method, or deception tide it over another year. They would no be able to do this if the newly-elected Cali

fornia Senator, from Los Angeles, should go on the River and Harbor Committee, and this would be the best way to protect California's harbor interests.

THE Supreme Court rendered a decision yesterday on an important city case, holding that banks must pay taxes on solvent credits. It will make a big difference with the assessment roll.

Two years boys were hanged by a mob at Magnolia, Miss., last week because they broke into a country store and stole a few dollars' worth of goods Mississippi is the State where it is impossible to hang a white man, what ever his crime.

THE Chicago Tribune thinks that under a Republican administration the United States navy is growing at a rate that will amply justify Mr. Cleveland in permitting his heart to swell with patriotic joy when he sits down to write his first annual message to the next Con

NOTWITHSTANDING the efforts of San Jones and the morning newspaper editors of Memphis to keep things torrid, it is said that Memphis has experienced an exceptionally cold winter. This simply shows that Providence does not cooperate with Sam Jones and the Memphis editors.

In an item yesterday about the death of the German banker, Bleichroder, a typographical error made us say "five millions" as the war indemnity paid by France to Germany. The word, as written, was milliards. This correction is made in order that the item may be rendered intelligible.

THERE is a movement in Canada to tax bachelors, with the idea of thus driving them into matrimony. It's a bad plan. Most bachelors are of the kind much more easily led than driven. Canada might better import a lot of bright-eved girls and young widows and then let nature take its course.

THE Riverside Press has reliable in formation from Florida to the effect that good sound fruit is in good demand there, and prices improving every day. The bulk of the Florida crop will be shipped by the first of March, and with the modification of the severe cold in the Northwest the market will demand large shipments from California. As vet prices have ruled low in California. and a large share of the crop has been held back. It is to be hoped that the market will not only open strong for the quantity required, but that there may also be a stiffening of prices.

THE electric lights to be installed on the World's Fair grounds are to have an aggregate illuminating power of nearly twelve and a half million candles. In order to keep Chicago from boasting about this and claiming in her off-hand way that she is somewhat ahead of the orb of day, a scientist has calculated that, with all the lights in full blast, an inhabitant of the moon would need a telescope of 400 diameters magnifying power in order to perceive the merest glimmer. Chicago may lord it over New York as much as she pleases, but she had better not begin to make comparison with the sun, moon and stars.

THE Stockton Mail has been studying the proposed annexation treaty with Hawaii, and fails to find how the Chinese of that country can be kept out of the United States, if the islands become a part of our territory. Under the Fourteenth Amendment of the Constitution, it says: "The citizen of one State or Territory cannot be excluded from entering another State or Territory of the Union." Butthe Mail fails to note that the same amendment de fines citizens of the United States as "all persons born or naturalized in the United States." The Chinese cannot be naturalized unless special laws to that end are enacted for Hawaii.

It is now intimated that the announcement regarding Gresham's appointment defeated the repeal of the Sherman act. This announcement, it is claimed, served as a warning to Democrats that President Cleveland was trying to build up a personal party and they refused to aid him in the one act which above all others he desired from Congress. .

AMUSEMENTS.

AT THE PLAYHOUSES.

PARK THEATER .- Another big audience greeted the players at the Park last night, the occasion being the first presentation by the stock company at that house of Dion Boucicault's lurid melodrama The Streets of New York, with striking scenic and property effects and a fairly effective cast.

The play would have gone much more moothly last night had all the players been better up in their lines, some of to the following extract is taken:

. Somehow, Senator Frve of Maine, chairman of the Senate Committee on Rivers and Harbors, and Senator Jones of Nevada are able to whipsaw matters around so that the committee at its last two meetings did not reach the San Pedro Harbor matter at all. As I understand it, the Senate committee stands nine in favor of doing something for San Pedro at once, as against three in favor of any hocus pocus arrangement that will defeat or postpone the measure. Just now, having been driven to the last extremity, they are fighting for time. The chairman of the committee has great power and is able to play a waiting game. Of course, we have no one on the committee who is directly interested in the improvement. Senator Felton, who is particularly earnest in advocating the beginning of the work, is not on the committee at all, and is soon to go out of the Senate, and is, therefore, not as effective as he would otherwise be If he had longer to serve. If Senator White of Los Angeles could go on the River and Harbor Committee, which is one

smoothly last night had all the players been better up in their lines, some of the lapses in that regard being almost painful, showing evident lack of rehearsal, but no doubt by tonight everybody will be letter perfect. There are several of the people inappropriately cast in the play now on the boards, particularly "Puffy" and "Paul Fairweather," thus detracting materially from the strength of the production, but for all that the stirring scenes and incidents of the piece were sufficiently well rendered last evening to call out many plaudits, with curtain calls following nearly all of the seven acts.

The most marked successes of last night's performance were Fred A. Cooper in the rôle of "Dan" the warm-hearted New York fireman, always ready to do a good turn for some one, and fit at all hours of the day or night for a fight or a frolic; Millie Freeman as his mother, "Mrs. Puffy;" Anita Fallon as "Alida Bloodgood," the imperious daughter of the crafty and dishonest old banker with not enough good in him to swear by, and Georgia Woodthorbe in the trying rôle of "Lucy Fairweather." Frank C. Thompson as "Badger" captivated the audience, and was the recipient of warm applause. But for his over attempts at sang froit in the assumption of the rôle he would have scored a great hit. Mr. Sutherland's staglness in the rôle of "Gideon Bloodgood" was more marked than in any of his previous characters, and Alma Shyrma is too young and comely for the part of "Mrs. Fairweather." ator White of Los Angeles could go on the River and Harbor Committee, which is one of the most important committees in the Senate, especially for California, which has a seacoast border for its entire length, there would be no trouble about the San Pedro Harbor deep-water work being commenced immediately. acters, and Alma Shyrma is too young and comely for the part of "Mrs. Fairweather." However, the production as a whole is well worthy the patronage of the public at the prices demanded, and if severe re-hearsals are insisted upon but little can be said of the new venture other than a praise-

The same play will be continued for the balance of the week, and on Wednesday night there is to be a real wedding on the stage, which will doubtless fill the house.

ATTRACTION TONIGHT.-Many and more pretentious organizations on the road are giving a less pleasing entertainment than that of Richards & Pringles's famous Georgia minstrels. There are some agreeable voices among the company, Billy Kersands, the man with the big mouth, is as droll as ever, and is, beyond question, a funny coon, and the impersonation of the Biack Patti-Gauze is a difficult and artistic piece of acting. Another pleasing feature is the drill of the Pullman car porters in full uniform, giving all the railroad signals with lighted lanterns. The Georgians will be at the Grand Operahouse tonight and tomorrow afternoon and evening. pretentious organizations on the road are

COMING ATTRACTION .- The title of John dillen's new comedy, A Model Husband, is suggestive of a great deal of mirth, and reports lead to the belief that a company of extraordinary merit is supporting the eminent comedian. Mr. Dillon's talents are too well known to need commenting or although it is said that his characte ("Benjamin Bascum," the hen-pecke although it is said that his character "Benjamin Bascum," the hen-pecked husband) in the new piece fits him exactly, and that in it he is making one of the greatest hits of his life. He will be at the Los Angeles Theater Friday and Saturday.

MUSIC AND MUSICIANS.

PHILHARMONIC CONCERT .- The Philharnonic Orchestra scored another big success at its second concert last night at the musical organization sprung into such instant and general popularity as this or-chestral club of some forty musicians chestral club of some forty musicians under the leadership of Prof. Stamm. That all the players are professionals and not amateurs, and therefore bring to their work the finished skill of long experience, doubtless has much to do with the perfection of their performances. It was music— pure and simple—that the great audience listened to last evening, devoid of the dis pure and simple—that the great audience listened to last evening, devoid of the distractions of elaborate stage dressing—or even the glare of footlights. The time-honored "bedge of flowers and foliage" was missing, so were the "elegant floral pieces" and other stage decorations. Even the stage scenery was subdued, just a background of crimson panels and the slight from a couple of chandeliers over the heads of the orchestra. The back part of the stage was raised, thereby destroying the tendency of the front row of instruments to drown those in the rear, as was the case at the first concert, when the forty musicians were seated on a level.

The large and fashionable audience filled the house from top to bottom, and were responsive and enthusiastic from the opening selection to the closing.

Mrs. L. J. Llewellyn, the soloist, won the admiration of the audience by her rich contralto voice. Her selections were simple ballads, every word so clearly enunciated as to be entirely distinct. Her response to the encore which followed her first song was especially sweet and tender.

THE CITY COUNCIL.

The Violation of the Eight-hour Law Discussed.

Notice of Forfeiture Served on Two of the Contractors.

The Southern Pacific Double-track Franchise Tabled.

An Amended Application at Once Filed by the Company-Street Work Ordered-Message from the Mayor, The Library Directors.

The City Council met in regular session yesterday morning at the usual time, every ward being represented, and transacted a large budget of routine business.

After the usual preliminaries had been disposed of, the following mes-sage was received from the Mayor: sage was received from the Mayor:
To the honorable Council of the city of Los
Angeles—GENTLEMEN: I herewith return
without my approval an ordinance regulating the removal of sand from the river
bed. This same ordinance took effect December 5, 1890, being No. 867, and, approved December 3, 1890, has not since
been repealed, and is now in force.
TE. E. ROWAN, Mayor.

T. E. ROWAN, Mayor.
Upon motion of Councilman Campbell, the vote by which said ordinance had been adopted was reconsidered, and the ordinance filed.

A communication was also received from the Mayor to the effect that he had appointed G. A. Dobinson, F. H. Howard, W. A. Spalding, Sheldon Borden and W. J. Hamilton as directors of the Public Library, to succeed the present board at the expiration of its term of office on March 25 next. The appointments were unanimously con irmed.

CITY HALL PARK PENCE.

W. W. Robinson, custodian of the City Hall, reported that in accordance with the directions of the Council he had made an estimate of the cost of property, similar to that around the plaza, and found that with gates the iron fence in front of the City Hal plaza, and found that with gates, it would amount to about \$300. Re-

ferred to the Building Committee.

The Finance Committee reported recommending that the petitions of Mrs. Gertrude Webster and the Farmers' and Merchant's Bank be referred the facts therein contained. Adopted. In the matter of the report of the City Clerk presenting an estimate for-the framing of the Hancock's survey map, and asking that he be authorized to have it framed, the committee recommended that the work be done and the requisition for the same at \$33 be

allowed. Adopted.

The Bridge Committee's report, recommending that the City Engineer be directed to prepare plans and specifica-tions for repairing the Seventh street and Magnolia avenue bridges, was adopted as read.

The report of the Board of Police commissioners requesting the Council to authorize the printing of 250 copies of the annual report of the Chief of Po-lice for 1892 was referred to the special Committee on Reports.

That of the Board of Public Works.

which was published in THE TIMES Saturday last, was adopted as read. CITY ATTORNEY'S REPORT. The City Attorney reported as fol-

drants. The contract and bond were approved.

I have prepared and present herewith an ordinance changing the name of a portion of Loomis street to Sixth street. This was one of the objections raised by the Court to the proceedings for the opening of Sixth street. Adopted.

I have prepared and present herewith an ordinance authorizing the property-owners to improve a portion of Ninth street by private contract. Adopted.

In the matter of the petition of L. S. Seamans, City Justice, I find that the same procedure has been followed in Mr. Seaman's case as in that of the balance of the officials, and would therefore advise that his demand be rejected. I will, say, however, that Judge Seamans is entitled to \$2000 per year, and any loss at one end of the term would undoubtedly be met at the other end. Adopted.

In the matter of the petition of A. Mecartney for the rebate of certain moneys expended by him in the purchase of certain.

In the matter of the petition of A. Mecartney for the rebâte of certain moneys expended by him in the purchase of certificates of tax sale, I would advise that the petition be denied. Adopted.

In the matter of the petition of William Riley and others for the opening of an alley between Hill and Olive streets, south of Temple, I have made a careful examination and find that this alley has been deeded to the city and the deed accepted. I would therefore advise that the Street Superintendent be instructed to remove all obstructions from the alley and open the same. Adopted.

In the matter of the petition of Therese D. Sanchez, asking for the rebate of cer-

D. Sanchez, asking for the rebate of cer-tain money paid by her as an assessment against a public alley for the opening of Seventh street. This money never came into the hands of the city, but was collected by the commissioners and disbursed by them in the opening of the street. The city never had any benefit from the money, and while it would seem equitable that Mrs. Sanchez should have the money returned to her. I see no reason why it should be paid out of the funds of the city. At the time Mrs. Sanchez paid this money for the opening of Seventh street she certainly should have known she was paying for an assess-

out of the funds of the city. At the time Mrs. Sanchez paid this money for the opening of Seventh street she certainly should have known she was paying for an assessment upon a public alley, and that the same was void. I must advise that there is no legal reason why this petition should be granted. Adopted.

In the matter of the communication of I. N. Inskeep and others regarding certain excavations for gravel in the Sisters of Charity tract, in this city, the State law provides amply for the punishment of persons maintaining a nuisance. These cases seem to come directly under the provisions of the statute, and I would advise that the petitioners consult the District Attorney, who, I have no doubt, will issue complaints forthwith against each and all of the persons who have causes or are maintaining these nuisances. Adopted.

The Supreme Court has decided the case of the Los Angeles Cemetery Association against the city of Los Angeles, involving the title to Evergreen avenue, in favor of the city, affirming the former decision of Judge Van Dyke. Filed.

Judge Shaw has decided in the case of Hubbell against the city, involving the collection of the assessment for the opening and extending of Sixth street, that the proceedings are defective, for the reason that the Superintendent of Streets did not post the proper notice, and that the report of the commissioners showed that they had allowed damages for property which constituted a part of Ward and Figueroa streets, and for these reasons has enjoined the collection of the assessment. There has been a large amount of money paid in on account of this proceeding, which I advised to be returned to the property-owners; and, in case you desire to renew the proceedings, you will have to commence from the beginning. Adopted.

VIOLATIONS OF THE EIGHT-HOOR LAW. ation was laid on the table, the Ninth streets, between the river and Zanja No. 7. After debate, the peti-tion was referred to the Land Commit-

VIOLATIONS OF THE EIGHT-HOUR LAW. In the matter of the alleged violations of the eight-hour law by sewer contractors, the City Attorney re-

You having referred to me the report of the Sewer Committee to the effect that the contractors upon the outrall sewer were working the men more than eight, hours a day, with instructions to at once carry out the provisions of the contract. I report as follows: The contract provides that in case a contractor wilfully violates, any of

its provisions the City Council may, on five days' notice to the contractors, order them to discontinue all work under the contract, and shall have a right to proceed with the same, hire all necessary labor and purchase all necessary material, and shall have a right to use all the material then upon the ground, together with all the tools, machinery, etc., and charge the cost of all the same to the contractors and retain the same out of any sum of money due or to become due under the provisions of the contract. In accordance with this provision I have drawn up a notice to the contractors that they have violated the terms of their contract in relation to the eight-hour clause; that all rights under such contract are terminated, and that they are notified within five days to surrender the possession of the work, together with all materials on the ground—tools and machinery—to the city, which will take charge of the same and proceed to complete the work. Any money which is now due the contractors should be retained until it is ascertained whether or not the work can be completed within the amount of the contract; and in case of any loss over the amount so retained the bondsmen of the contractors will be responsible.

After the reading of the notices accompanying the report, Councilman Munson moved that the report be

companying the report, Councilman Munson moved that the report be adopted and the clerk instructed to

serve the notices prepared by the City Attorney upon Contractors J. Rebman and the Frick Bros.

At this juncture, however, J. E. Frick, one of the contractors referred to, el bowed his way through the crowd in the lobby and addressed the Council from the railing. He admitted that some of his men were working nine hours per day, but claimed that it was not compulsory, the men preferring to do so, as they received extra pay. He had no intention, however, of violating

the conditions of his contract.

City Attorney McFarland called the attention of the Council and the contractor to their original contract, and after reading the eight-hour clause therefrom, stated that this clause had been expressly inserted in all city con-tracts, in order that more men might be employed thereby. The kick, in this instance, did not come from the men who were at work, but from those on the outside, and the matter resolved itself into the question as whether the ity or the contactors were going to run

this sewer business. Contractor Frick evinced a disposition to argue the matter, and, when the City Attorney challenged him to name some contract in which the eight-hour clause was not inserted, referred to that with the electric lighting company, and one or two others for supplies. contended that the nature of the speciheations precluded the possibility of his employing more men, as he was not allowed thereby to have more than 400 feet of trench ahead and 100 behind

the sewer, open at any time.

After a heated debate, in which the City Attorney had decidedly the advan-tage, Councilman Strohm moved that the matter be referred back to the Sewer Committee with instructions to ody to make some arrangements with the contractor regarding the mat ter, which motion prevailed by a vote of 5 to 4, Messrs. Campbell, Munson, Pessell and Teed voting negatively. BIDS OPENED

The following bids were then opened and read:

For the construction of section 4 A of the outfull sewer: P. M. Darcy and H. C. Register, \$35,694; Frick Bros. \$35,500; F. C. Young, \$31,033. For the construction of section 5 A of the outfall sewer: Darcy & Register

Frick Bros., \$33,490; F C. Young, \$27,980. For the removal of dead animals: John Farrell, \$4.75 per head for large and \$1.75 for small; George Tuttle, \$3.93 and \$1.93; A. Ramish, \$3.95 and \$1.95: P. Mitchell. \$5 and \$2

A. M. Potter, \$3.45 and \$1.50; J. Schaubert & Co., \$3.50 and \$1.25. M. Austin, 11 cents per square foot; Conrad Scherer, 15 cents and 8 cents per quare foot; John M. Drain. 13 cents per square foot. Referred to Board of

ublic Works. For the supply of bread to the city prisoners: A. H. Edwards, 314 cents per loaf. Referred to Supply Committee

For the supply of groceries: Bradford Bros. and Anderson & Chanslor. Same reference.

ADVERTISEMENTS ON ELECTRIC POLES. Councilman Nickell presented the draft of an ordinance against defacing light or power poles by butting signs on them without permission of companies owning the poles, which was read. It carries a penalty of \$50 fine or fifty

days' imprisonment or both. Superintendent Barrett made a state ment that it was for the purpose of al-lowing the companies to control their own property in this respect and that nothing would be placed on the poles detrimental to the city. The ordinance was unanimously adopted under suspension of the rules.

A recess was then declared until 2 clock p.m.

Afternoon Sessie At 2:10 o'clock President Teed took he chair and called the Conncil to order, when the application of the Southern Pacific Company for a franchise for a double track on Alameda street was called up, but was temporarily laid aside to consider the bond and contract f Ramish & Marsh for disposing of the city garbage for a period of two years.

After the reading of the contract,
Councilman Pessell moved to amend the contract by striking out the boundaries given, and substituting any place of side the city limits acceptable to the contractors and sanctioned by the Su-pervisors. The motion failed for want of a second, and further action was degiven, and substituting any place out

The manager of the Free Labor Bu-

reau reported that 111 applications for places had been filed during the week, and that thirty-two positions had been secured—twenty-seven males and five females. Councilman Rhodes presented a reso

ution, asking the Legislature to repea the mortgage tax law, which had proved a hardship on the borrower, which passed, under a suspension of the rules by a unanimous vote.

Councilman Nickell moved that the clerk be instructed to advertise for bids for furnishing lumber, when President Teed objected, saving that the system was bad, as it cost as much for drayage as for lumber. He thought that lumber should be purchased at the most convenient yard at current rates, after debate Mr. Nickell's motion prevailed, the bids to be for lumber delivered at the points within the city where

required.

The vote by which the electric and telegraph pole sign ordinance was passed at the morning session was re-considered, after which the ordinance was amended by adding the words, "no signs or advertisements exceeding the width of the poles," and passed under suspension of the rules.

Police Officers Must Swear to Complaints

Before City Justices. On several occasions Deputy District Attorney Conkling, who attends to business before the police courts, has shown a disposition to turn business to the Township Justice's Court, presided over by Justice Bartholomew, and also to have warrants served by Constable Richardson of the same court. Justice Bartholomew's office is supported by fees, and if no business is done there is no compensation. The city justices, on the other hand, are paid a regular sal- Lewis's employ. any telegraph, telephone or electric ary of \$166.66 per month. Little Fong Cam.

Little Fong Cam, the fourteen-yearold Chinese girl now playing at the Chinese theater in this city, is said to beithe first "little foot" Chinese woman

ever appearing on the stage.

It is generally supposed, indeed has so been stated by the press, that Fong Cam is a native Californian, but the woman herself denies this, as does her father, the leading man, both of whom speak fairly intelligible English. The fact is Fong Cam was born in Canton, China, but was brought to this country while an infant.

Escaped from the Reform Schi A boy by the name of John Collins, an inmate of the Whittier Reform School, scaped from that institution about 4

o'clock yesterday afternoon.

The boy was sent from San Fran-cisco, was about 15 years of age, of rather stout built, blue eyes, light complected.

No particulars were received as to the manner of his escape or cause of in-carceration—in fact, the information sent the police headquarters were meager in the extreme.

A very pretty and romantic double wedding took place yesterday morning at St. John's Episcopal Church. About a year ago two young Englishmen, Gilbert and Robert N. Allen, bought a ranch and settled in Riverside, and soon established themselves as general favorites. They were looked every way as eligible young men; but as they both left sweethearts in the old country they were proof against even the Riverside young ladies. Last week a party consisting of Col. May and Lieut. Cameron of the British army, Mrs. Cameron and the Misses May, ar-rived in Los Angeles and registered at the Westminster. Yesterday morning Rev. B. W. R. Tayler united in the bonds of holy matrimony the two young Englishmen and the Misses May. The brides were given away at the altar by their uncle, Col. May, who is also their legal guardian, the young ladies being heiresses to large estates and wards in chancery. C. S. Ward, the organist of chancery. C. S. Ward, the organist of the church, played the wedding march from Lohengrin. After the wedding the bridal party, with a few invited friends, lunched at the Westminster. The party left for the North last evening.

EASTERN STAR RECEPTION. The rooms of Masonic Temple crowded Saturday evening with members of the Order of the Eastern Star and their invited guests, who assem-bled, after the closing of the chapter, at an informal reception tendered by the order.

The opening programme consisted of nusical and literary exercises, admirably rendered, the most noteworthy being a violin and piano duet by Misses Florence and Annie Pease, a recitation by Miss Hattie Pearson, solos by Mrs. Dr. Shoemaker, accompanied by Mrs. Lowinsky, and Mrs. L. Scholes, accom-panied by Miss Grace Pease.

The remainder of the evening was spent in dâncing, playing games, and in social intercourse, and all enjoyed themselves to the fullest extent. Owing to the close proximity of Sunday the festivities were necessarily somewhat restricted as to time, much to the

general regret. The committee who had the affair in charge deserves great credit for the admirable arrangements made, as they left nothing to be desired.

SOCIAL GOSSIP. Mr. and Mrs. A. N. King, who have been spending two months in Los Angeles, left for their home in Portland, Or., yesterday. Mr. King is one of the pioneer Oregonians, and also one of the wealthiest men in Portland, where he owns much valuable real estate.

Mr. and Mrs. Simeon Brownell of De Wittville, N. Y., leave for home today, after a visit of several weeks in Southern California. While in Los Angeles they were guests of Mr. and Mrs. George Mason, who accompany them as far as San Francisco on their home

The Caledonian Club will repeat their Scotch concert tomorrow evening at the Los Angeles Theater. On account of the storm many were detained from the concert given some time ago. Mrs. F. L. Johnson and her son Frank

of Minneapolis, Minn., who have been stopping at the Brunswick for the past month, leave Tuesday morning for San Diego for a week's stay, after which they will return to this city.

Mrs. Mueller, accompanied by her daughter Clara, left for San Francisco Sunday, where they will take steamer for Panama, and thence to New Orleans, where they will remain some

An Old Man Badly Hurt by a Former Employee.

David C. Lewis, an old man living in East Los Angeles, presented himself for medical treatment vesterday morning at police headquarters. Dr. Bryant attended the old man, who had a se vere scalp wound, produced by a stone in the hands of Jesse G. Morris, a team ster, who had previously been in Mr.

The difficulty originated over the ownership of some planks, Morris who is a stout, healthy fellow, assaulting Mr. Lewis, who is 65 years of age, with a pistol, which, however, was wrested from the blood-thirsty fellow by a neighbor named Houston, after which Morris resorted to a cobblestone, bent on carrying out a threat to kill

After Mr. Lewis's wounds were dressed, he went to Justice Bartholomew's court, where he swore to a com-plaint and a warrant was issued, which was later served on Morris, who gave bail for his appearance in answer to the

charge.

Complained About Her Husband Yesterday afternoon a pretty little Spanish woman, who said her name was Mrs. Hiriart, with a seven-months-old baby, called at the police station to complain about her husband, Pascual Hiriart. Mrs. Hiriart said her husband had become infatuated with another woman and had been making threats that he intended to desert her and her baby. She exhibited a love letter, written in Spanish, which she said the woman had sent her husband. Mrs. Hiriart was informed that the police could do nothing in the case as it stood, but was told that if her husband as-saulted her she could swear to a com-plaint and have him arrested.

Fell Off the Vinduct. A man about 85 years of age, with light, sandy mustache, slight build and very much under the influence liquor, fell from the San Fernando viaduct about 9 o'clock last night, receiving several bad cuts about he face, which was also bruised consid-

The man, who was somewhat sobered

The man, who was somewhat sobered from his exploit when Officer O'Reagan sent him to the receiving hospital for medical treatment, gave the name of James Smith, although it is thought that is not his real name.

Dr. Bryant' dressed the man's wounds and put him to bed to sleep off the effects of his debauch.

Attempted Incendiarism

An attempt was made on Saturday Dorn on F street, Pfco Heights, and

only a timely discovery of the blaze only a timely discovery of the blaze prevented the total destruction of the building and coatents. The family was awakened about midnight by a noise at the rear of the house, and found the entire rear sportion of the structure in flames. A trail of hay was found leading to a barn near by, plainly showing that the fire was the work of incendiaries. It is supposed that the incendiaries. It is supposed that the firebug is the same person who has been lurking about the neighborhood for some time, and who has previously

Important Ruling by the Supreme Court.

The Position of the City Assessor on Solvent Credits Sustained.

They Must Be Added to the Assess ment Rolls When Omitted.

The Merits of the Case Considered a the Law Affirmed-Court Notes-New Suits.

Eight opinions were received from the Supreme Court yesterday by Deputy Clerk Sesnon for filing in this city, six of which relate to cases appealed from this county, the others being from Orange and San Bernardino counties. The cases decided are as follows:

Farmers and Merchants Bank of Los Ar geles (respondent) vs. Board of Equaliza-tion of the city of Los Angeles (appellant.) This appeal is from a judgment of the Su-perior Court annulling an order made by the City Council as board of equalization rendered in a proceeding under a writ of review, issued upon petition and affidavit of John Milner, cashier of the bank. The pe tition shows that petitioner duly made and returned to the City Assessor a list of all the personal property in its possession, or under its control, on the first Monday of March, 1891; that the Council, sitting and acting as a board of equalization, on August 5, 1891, ordered notice to be given petitioner to snow cause, on August 12, 1891, why its assessment of solvent credits should not be increased from \$2774 to \$275,000 not be increased from \$2.774 to \$2.75,000. That petitioner appeared and answered such interrogations as were propounded, but no other evidence was taken at such hearing. It is claimed that this testimony does not show, or tend to show, that petitioner had any solvent credits, or any which had escaped assessment. The board, however, made an order directing the Assessor to assess the bank for solvent credits in the to assess the bank for solvent credits in the sum of \$270,774, and the Assessor, pursu-ant thereto, added the sum of \$268,000

upon the assessment roll.

Appellants contend that this proceeding was not to equalize the values of property listed and assessed, but was an attempt to add other property to the list, which it is claimed the board could not do, as it is not vested with assessorial power. The Court, however, holds that the board was authornowever, notes that the board was author-ized to make the order by section 3681 of the Political Code, which the city charter expressly makes applicable. The claim that this section of the code is unconstitu-tional, because the State Constitution expressly defines the powers and duties of both the State and County Boards of Equal-ization, and the power to cause property to be added to the assessment roll is not there given, is held to be without merit, as Constitution requires all property not int from execution to be taxed. (Sec.

of art. XIII.)
The second contention that the board had no power to act in the premises because the notice was insufficient, in that it gave no information that it was proposed to add other property to the assessment, is also held to be without merit, as the defects in the notice were waived by the appearance of petitioner. (S.V.W. Co. vs. Schottler, 62

The next contention is that the order is void because there was no evidence before the board that any property had escaped assessment, but it is held that as the order assessment, but it is need that as the order recites that testimony was taken, and in effect, that the conclusion was reached from the evidence that the bank had returned a false list of its property and exaped assessment for solvent credits to the amount of \$268,000, this must be held con-

County of Los Angeles (appellant) vs. county of Orange (respondent.) Action to recover \$11,375.42, which had been expended by plaintiff in the construction of a bridge, and certain transfers to different road and school district funds within the defendant's boundaries, on behalf of Or-ange county, after March 11, 1889, the date of its creation. A demurrer to the complaint was sustained, and from the judgment rendered thereon plaintiff ap-pealed. It is held that the items for which pealed. It is dead that the items for which the action is brought were expenditures made between the date of creation and organization of the new county, but during all that time the territory within which they were made was a portion of Los Angeles county, and it must be assumed that they were made in the wise exercise of its they were made in the wise exercise of its control over that the territory; and the fact that the Legislature made no provision for the reimbursement of money expended by Los Angeles county for municipal purposes within this territory, is indicative that it was not its intention that it should be reimbursed therefore. The judgment is therefore affirmed.

Smith (petitioner) vs. the Superior Court of Los Angeles County (respondent.) Petition for a writ of certiorur, it being claimed that the order of the respondent of September 30, 1880, appointed Silver receiver for the Los Angeles and Pacific Railway Company, in an action wherein the California Bank was plaintiff, was in excess of the jurisdiction of the court, and asking judgment annulling such order. The court is unable to distinguish the action in which the order under review was made from that of the French Bank case (33 Cal., 495.), where it was held that the appointment of of the French Bank case (33 Cal., 495.) where it was held that the appointment of a receiver in such an action was unauthorized and void and should be annulled on certiforari. The case of Keys vs. Marin county (42 Cal., 256.) however, is regarded as conclusive that unless circumstances of an extraordinary character be shown to have intervened, the remedy through a writ of certiforari should be held to be barred by the lapse of the same length of time-that bars an appeal from a final judgment, and petitioner having allowed more than two years to elapse after the date of the order before applying for permission to intervene, the writ is ordered discharged and the proceeding dismissed.

Thomas F. Joyce (appellant) vs. A. C.

r) vs. the Superior Court

vene, the writ is ordered discharged and the proceeding dismissed.

Thomas F. Joyce (appellant) vs. A. C. Shafer and F. D. Lanterman (respondents). Action to recover the first installment paid upon an executory contract for the sale of land, which resulted in judgment upon demurrer to the complaint. The action being based upon the theory that by aband-donment or rescission the contract of sale became non-existant, and, therefore, moneys which have been paid before its cancellation may be recovered as money paid for the use of the person who paid it, is not, therefore, an action arising under the contract of sale, and the judgment and order are affirmed.

Margaret T. Sterling (respondent) vs. James Smith (appellant). Action to recover the sum of \$6608, being the balance of moneys received from plaintiff by her confidential agent in the purchase and sale of real estate for her, in which defendant claimed that he received \$2000 less than the sum named by plaintiff, which resulted in judgment for plaintiff in the sum of \$6503.75. Judgment amrend.

John R. Fletcher (respondent) vs. James W. Northcross (appellant). Action to recover possession of real estate in Orange county under section 380 of the Code of Civil Procedure. Judgment and order amrend.

Henry S. Scarf, etc. (respondent), vs. J.

Court Notes.

In the United States District Court yesterday morning Receiver F. N. Pauly of the California National Bank of San Diego was granted leave to compromise a doubtful debt for \$1400.

Judge Ross vesterday morning arraigned C. C. Morse upon two indictments charging him with having failed to comply with certain contracts made with the Government for the conveyance of the mails, whereupon the defendant entered his plea of not guilty, and was released upon ball in the sum

of \$500 in each case, to insure his appearance for trial on April 7 next.

Judge Wade yesterday discharged the rule against the clerk of Department Three in the case of William Deering & Company vs. the Richardson-Kimbail

Coronado Beach. The reasons are legion. Send for copy of "The Reasons why I Prefer Coronado Beach." This booklet tells you why & Company va the Richardson-Kimball
Company, in accordance with a brief
opinion rendered therein.

Ah Wing, the Chinese recently convicted of manufacturing opium for
smoking purposes without a license,
appeared before Judge Ross vesterday
afternoon, and was sentenced to imprisonment in the County Jail for the
term of twelve months, and fined in
the sum of \$1. His motion for a new
trial was denied.

The trial of the William Paul perjury Hotel Coronado tells all about the peerless climate, the fishing, the shooting, he bathing, the large, new salt water swimming tanks under glass roof, the drives, the excursions, and all about the diversions, sports and the hotel. In short, it tells you what to do at Coronado Beach and how to do it.

The trial of the William Paul perjury case was concluded in Department One yesterday. Although the matter was submitted to the jury at 11 o'clock a.m., that body failed to agree upon a verdict until 9.45 o'clock last night, when they returned a verdict of the second o when they returned a verdict of ac-

quittal.

Hon. W. A. Cheney occupied the bench in Department One yesterday morning, temporarily, in order to render his decision in the old case of E. J. Baldwin vs. James Durfee et al., which was tried by him during his term of office, and ordered findings and judgment for the defendants therein.

The trial of the case against Lewis Carlisle charged with having stolen a horse from J. F. Smith of Pomona, on October 8 last, was commenced in De partment One yesterday, but after se-curing a jury, the matter went over

until this morning.

The demurrer and motion to strike out the cross-complaint in the case of the Broadway Bank vs. R. N. C. Wilson et al., were argued and submitted to Judge Clark yesterday morning, as was also the demurrer in the matter of the contest over the estate of P. Convoy, de-

tion to dismiss the appeal in the case of the Old Settlement Water Company and overruled the demurrers in the fo lowing cases for various reasons: Mar-tha Vaughn vs. the city of Los Angeles; B. Ballerino vs. J. K. Bigelow et al., and A. S. Halstead vs. Union Oil Com-

pany et al.

Judge Van Dyke yesterday sustained the demurrer in the case of W. A. Bosqui vs. Kwong Hung On et al., but granted plaintiff leave to amend, and heard argument in the demurrer to the answer in that of Milton Thomas et al. vs. F. H. Barclay.

The demurrers in the following cases

were overruled by Judge Shaw yester-day for various reasons: Will F. Smith vs. Louisa J. A. Smith, Southern California Insurance Company vs. San Gabriel Valley Rapid Transit Company et al., Stockton Car H. and A. Works vs. Dan Houser, Ballona Harbor and Improvement Company vs. Southern Southern California Railway Company

Judge Shaw yesterday issued an order compelling Justice Williams of San Antonio township to transmit the pa-pers in the case of Leon Gazave ys. Martin Uhariet, or show cause for not doing so on Tuesday next, and denied the motion for the appointment of a re-ceiver in the case of Frank Freedman

vs. Isabel E. Fry.
Upon motion of the plaintiff in the
nuisance case of the People, etc., vs.
the Fairmont Land and Water Company et al., Judge McKinley yesterday se aside the restraining order of April last and the subsequent order modify

ing the injunction therein.

Mrs. E. I. Wittenberg was granted a decree by Judge McKinley vesterday morning divorcing her from F. Wittenberg upon the ground of desertion, by default.

George Steckel, the Los Angeles photographer, has reflected great honor upon himself, his county, and the southern portion of the State. His exhibit at the fair has won for him the first prize in every branch of the photographic art in which he competed. The list of his award is: Grand silver medal for the best and most artistic general collection of protographs, silver medal for the best and most artistic specimen of miscellaneous photography; silver medal for the best and most artistic collection illustrating various styles of photographic printing processes, etc.; and silver medal for the best and most artistic group photograph. With four handsome medals like these take to his home. Mr. Steckel may well consider that the labor and expense he has been to in his artistic display have not been in vain. He is the Sarony of California, and was the first to introduce on this Coast the beautifully soft and artistic platina work which has so greatly added to his reputation. In the matter of artistic posing Mr. Steckel has no equal, and the finish of his work can not be surpassed.

Mr. Steckel is to be congratulated upon his signal success, which stamps him as an artist of the highest class. and places him The following demurrers were overruled by Judge McKipley vesterday: Leonidus Bales vs. W. T. Lambie et al.; Annie Lillie vs. W. W. Lilley, and P. Pomerini vs. J. D. Cory et al.; while that in the case of Thomas Gorman et al. vs. H. C. Witmer was argued and submitted.

Justice Bartholomew arraigned Jesse G. Morris, a teamster, upon the charge of having assaulted an old man named David C. Lewis at East Los Angeles yesterday morning, and was remanded to the County Jail to ensure his appear-

ance for examination on Thursday A boy named James Payton was also arraigned in the same court upon a charge of grand larceny, he being accharge of grand farceny, he being ac-cused of having stolen a bicycle. He was required to furnish bail in the sum of \$500 to ensure his appearance for examination, failing in which he was committed to the County Jail.

THE sworn statement in our Sunday's advertisement showing an increase of 50 per cent over the sales of a year ago is an indication of very large growth. It stands without a parallel in this city. When a house doing a large business can show an increase of one-half as much again, it is remarkable. We believe we can maintain this growth throughout the year. We shall not harp on the thread-bare story of buying goods cheaper than any one else, or selling goods cheaper than any one else. We don't believe any one merchant has any very great advantage over another in this respect. The dry goods business has got down to a basis of good treatment, good attention, good styles, and the attractive way in which they are exhibited. It is necessary to have salespeople of ability who understand the art of pleasing; they should be accommodating and show a desire to wait upon the trade thoroughly and well; they should show the new things whether the customer asks to see them or not. In this way the ability of a good salesman comes in play by taking an interest in the customer. We do not believe in urging or crowding sales. We believe in giving samples and refunding money to dissatisfied purchasers. The good will of a customer is worth more than the loss on the goods. One hundred feet of counter room devoted exclusively to the sale of dress goods. The shelves are crowded with all the new ideas for spring. Our 50c line of allwool goods is large; the variety very extensive; specially new in style, and goods of splendid merit. Samples given for comparison. We show a large variety of styles at 25c, 30c, 35c, 40c; choice new things. The styles at 60c, 65c, 75c, 85c, 90c and a dollar a yard are where the greatest variety is; serges, whip cords, diagonal weaves, along with henriettas, fancy weaves and colored goods in stripes, checks and plaids in Scotch and heather mixtures. Grand styles in goods at a dollar a yard. Cheney Bros. silks at a dollar a yard; new styles for spring. Cheney Bros. India silks are famous for wear, and are sold by all the best houses in the country; everybody sells Cheney Bros.' best goods for a dollar a yard. New French sateens, new wash dress goods, new things in printed henriettas, 25c a yard; splendid for wrappers. Anderson's Scotch ginghams, the gem Scotch goods, 25c a yard. BUSINESS.

FINANCIAL AND COMMERCIAL,

OFFICE OF THE TIMES, Los Angeles, Feb. 20, 1893.
The Mark Lane Express, in its weekly review of the English grain trade, says:
English grain is 6d to Is lower. Foreign wheat is steady in London for red winter and Calcutta, but weak for California. American flour is down. Corn has risen in many markets and the demand exceeds shipments from America and Russia com-

The Bradstreet Mercantile Agency re-ports 16 failures in the Pacific Coast States and Territories for the week ended States and Territories for the week ended February 17, as compared with 14 for the previous week and 12 for the corresponding week of 1892. The failures for the past week are divided among the trades as follows: Three furniture, 2 men's turnishing goods, 1 publisher, 1 grocer, 1 general merchandise, 1 saloon, 1 books and stationery, 1 canner, 1 drugs, and I wholesale rubber goods.

"Three were no changes of importance in the local markets today, and quotations, as a rule, are the same as on Saturday.

Advices from S. B. Francisco state that stocks of choice oranges are well cleaned up: seedlings are weak; Mexican limes are firm.

firm.

The vegetable market is quiet. Potatoes are firm and steady. Onlons are a shade easier, with ready sale for all kinds.

The butter market rules steady, with reduced stocks for shipping demands.

The egg market is weak with light local demand. Cheese is active, but with a weaker tone.

The Pork Pack.

The following statement is of interest, as showing the enormous difference in the showing the enormous difference in the number of hogs packed last year, as compared with the year before, at the principal Eastern packing centers. From November 1, 1891, to February 8, 1892, the number packed was 6,064,200, while during the corresponding period of 1892 and 1893 the number was only 3,691,506, a decrease of 2,372,700, or over one-third less than was packed during the first of the two years here given.

The aggregate stocks of lard, in tierces show a corresponding decrease.

The reports are compiled by the Cincinnati Price Current, and, as stated above, show the number of hogs packed from November 1 to February 8, at the understated places compared with last year.

Important Meeting of the City Board

The New License Ordinance-Plans Pavidg the Streets-Local News Briefly Summed Up-Personals.

The City Council met in regular session at 3 o'clock yesterday afternoon. Presi dent Weed presided and all the Trustee

were present.

The minutes of the previous meeting

were read and approved.

All bills were referred to the Committee on Auditing and Finance without reading,

Judge Enoch Knight addressed the board In relation to establishing the grade of Colorado street between Vernon and Orange Grove avenues. Trustee / Lukens stated that it was the request of some of the par-ties interested that the matter be deferred one week, and it was so ordered.

A petition was submitted, signed by twelve property-owners, asking that the grade of Bellevue drive be established be-tween Pasadena and Fair Oaks avenues. The petition was granted, and the Engineer instructed to make the necessary survey. The Committee on Auditing and Finance reported favorably on bills to the amount of \$194.52. The report was approved and the necessary warrants ordered drawn.

THE NEW LICENSE ORDINANCE. Considerable time was devoted to the first reading of the ordinance licensing different kinds of business, the important features of which were published exclusively in THE TIMES, and which received the sanction of the board substantially as printed, except in the following particulars.

lars:
In the paragraph reading "For every band or banking institution, \$10 per month; for every savings bank or savings department of any bank, \$5 per month," the words "or savings department of any bank" were stricken out.
The license for the gas and the electric company was reduced from \$20 to \$10 per month.

The license for "every hack, coach, omni-

bus or carriage engaged in taking passengers for hire," was raised from \$2 to \$4 The license on each billiard and pool table was reduced from \$1 to 50 cents per

month.
For "real estate or insurance agents, or either," read "real estate and insurance agents or either," \$3 per month.
The fruit-selling paragraph was changed to read: "For every wagon used in selling fruit on the street, \$2 per month."
The street-car license was reduced from

\$5 to \$2.50 per car per annum.
The tax on street venders of medicines or

The tax on street venders of medicines or any kinds of notions or merchandise was raised from \$3 to \$5 per day.

The ordinance further provides that all licenses shall be paid invariably in advance, and where the license is a monthly one it shall be paid for three months in advance. Applications for and payments of licenses must be made to the city Tax Collector. The licenses will be issued in due form by the City Clark Parcens found form by the City Clerk. Persons found guilty of violating the provisions of the ordinance shall be adjudged guilty of misdemeanor, the penalty for which shall be a fine not less than \$5 nor more than \$300, or imprisonment for a term not to exceed three months, or by both such fine

THE STREETS WILL BE PAVED

Another matter of special importance that came before the board was the paving of Colorado street between the west line of Broadway and the east line of Delacy street, and of Raymond and Fair Oaks avenues between the south line of Union street and the south line of Vineyard street. The fact that the members of the board are unanimously in favor of the immediate carrying out of this much-to-be-desired undertaking was emphasized by the passage of resolutions of intention to pave these thoroughfares between the points above outlined. Section 2 of the resolutions reads as follows:

"That this Board of Trustees finds upon estimates directed to be furnished and furnished by the City Engineer, that the cost of the above proposed work will be greater than \$2 per front foot along each line of said street, between said lines, including the cost of intersection work assessable

than \$2 per tront root along each line of said street, between said lines, including the cost of intersection work assessable upon said frontage: and that said Board of Trustees hereby determines that serial bonds, bearing interest at the rate of 7 per cent. per annum, and extending over the period of ten years from their date, shall be issued to represent the cost and expenses of said work, and in the manner and 'orm provided by law."

Annual Convention of Southern California Turners.

Closing Exercises of the Meeting Sunday Night-Preparations for the Tennis Tournament at Riverside-General News,

SAN BERNARDINO

The Turner societies of Southern Callfornia, in annual convention in this city, had a big time at Turnverein Hall Sunday night. The exercises of the evening opened with a welcoming address by Prof. Betser of this city, who invited the visitors to the big spread, at which C. J. Rhode presided. The San Bernardino stringed orchestra was present, and struck up a lively German air. The Los Angeles Turners rendered a taking selection, after which a pretty selection was given by Messrs. Pleisman and Herzog on mandolin and guitar, which was received with loud appause. A very amusing recitation was given by Mr. Vogel of the Sud-California, and Secretary Metzkrow of San Bernardino gave the "Bavarian Musicians." Mr. Rudolph imitated to perfection the return at early morn of the man with "a load of booze," and Mr. Herzog imitated the sounds of several manufacturing industries. Albert Metzkrow gave "The Saxonian's Grudge Against the Prussians, "after which the orchestra struck up the dead march, and from the dressing-room there filed

THEIR PRIDE.

There are some people in this city who seem to take a peculiar pride in the out breaks of disorder and crime, all too frebreaks of disorder and crime, all too frequent in this city. The escapades of the past week elicited the following in a local paper: "If San Bernardino continues in the course as begun this week she will be a city of the first class, and will undoubtedly rival San Francisco in the robbery and shooting line. A daring robbery and three passages at arms in two days is a record that the metropolis cannot excel. A big fire before the close of the week would put on the finishing touch."

AGAINST THE PENSIONS.

AGAINST THE PENSIONS. The proposition to pension school teachers is one of the most absurd of the many absurd measures which are presented to the State Legislature. It finds no support among the teachers of this city, and good teachers everywhere denounce it as a measure which will not only tend to lower the dignity of the profession, but the sal-aries of the teachers as well. Few people of honor would care to enter a profession of nonor would care to enter a profession which, with the close of their career of usefulness, leaves them upon the list of the State's indigents. It would, therefore, work irreparable injury to the schools of the State by driving from the ranks of its teachers those who have the self-respect of good men and women. Kill the bill, say all good teachers. good teachers.

The time for the opening of the State Citrus Fair is rapidly approaching, and visitors to this city are asking where the peo-ple are to be accommodated. If fifty peo-ple were to come to Colton today they could not be comfortably housed. But it is not yet the date of the opening of the fair and there will be room for many by that time. Then there are the cities of San Ber nardino, Riverside and Redlands, distant but a ride of five to twenty minutes, costing as many cents. In these places abundant and luxurious accommodations may be ob-tained for all. Trains will run every few minutes.

The residents and property-owners along the line of the Liftle Reservoir Canon Ar-royo asked to have the storm-water ditch made about a foot broader than called for in the plans. The City Trustees granted the request, provided the extra cost be borne by the petitioners. The latter agreed to pay not more than 26 cents per running foot for the addition, and the work was secured at a cost of but 18 cents per foot, and the money subscribed in less than two hours' time. There seems to be no difficulty whatever in getting city improvements made and paid for the public spirit of the citizens rises so high.

A Crooked Young Man Captured After

Long Chase.

John Bright is the name of a young man, who, if reports and charges are true, will have a serious time of it in the near future. A short time ago he was engaged by R. S. Bassett to sell pianos, organs and sewing machines. His work kept him "on the road" all the time, making collections and selling new instruments on the instalment plan. He only worked a few weeks, but succeeded in that brief time, so it is alplan. He only worked a few weeks, but succeeded in that brief time, so it is alleged, in getting away with about \$200. It is alleged that he made collections that were never turked in. The most serious charge is, however, that he took a plano from a nouse near Azusa, where Mr. Bassett had it rented, and sold it to a party near Glendora. The piano, Mr. Bassett says, was a \$350 piano, and Bright sold it for \$150, pocketed the money and then "skipped." The officers have had a merry chase for him through the East, but he was finally captured in San Francisco, where Officer Slank went to recognize him. The trial came up yesterday, but was postponed for two weeks to give Bright achance to get some evidence.

Macy. Waters & Zilles shipped a car of oranges East yesterday via the Santa Fé.

Their car, the President, was especially constructed for them, and embraces nearly all the comforts of home-containing as it does, a well-appointed kitchen, a cheerful dining apartment and comfortable sleeping quarters. On the rear of the car is an observatory, furnished with easy-chairs and two soft couches, where one may sit, shaded from the bright rays of the sun, and view, through the low, broad windows, the picturesque and rapidly-dissolving landscape.

The party is traveling for pleasure only, and, having plenty of leisure, can have the car detached when and where their fancy may dictate. They are thus enabled to take in all the points of interest, giving not thought as from their next meal may come, knowing full well that an appetizing table awaits their return to the car.

They carry their own servants, and especially-constructed fee-chests contain all the luxuries of the season.

The party will make quite a stop at Los Angeles, then a long one at San Francisco, from which place they will go to Monterey. Other points to be visited are San José the Lick Observaiory, and then eastward to Salt Lake City, Greenwood Springs, Colo, where they will make a lengthy stop. ASSAULTED ON THE STREET.

Boy's Narrow Escape from a Cowardly Ruffian. Shortly after dark, on Sunday night,

as the fourteen-year-old son of W. T. Williams was passing along the street opposite St. Vincent's Cathedral, a man jumped out from the shadow and seized the lad and held him up against the building with the intent of committing an outrage upon his person. The bo cried loudly for held, and a little dog, which was following at his heels, bit savagely at the man's legs. The fiend attempted to stop the boy's cries by using a handkerchief as a gag, and would have succeeded in accomplishing his purpose had not a milk warm. his purpose had not a milk wagon chanced to pass. The fellow, seeing the vehicle, released the boy and ran-off down the street. The police think that he is the same person who as saulted Frank Hulen, the newsboy, last December, as the descriptions given tally almost exactly.

C. A. Lamoreux, late general freight agent of the Chicago and North western road, writes to Maj. H. M. Russell as follows:

Russell as follows:

We returned from our Southern trip ont January 22, and 1 beg to assure sure you that the trip through the Republic of Mexico was most interesting. We also had a delightful journey through some of the Southern States, and had an opportunity of seeing a large amount of territory, but I am pleased to say that I still think Los Angeles and the country in that locality is by far the finest we passed through, and that the climate is unequaled. Our general superintendent. Mr. Campbell, advises me that in all probability he would take his car, and with Mrs. Campbell and possibly one or two other members of his family, go to Los Angeles for a six weeks or two months' vacation.

Charged With Vagrancy.

The charge of grand larceny preferred against the two women, Ada Blanchard and Georgia Palmer, who were accused by the two Texas cowboys. William Bower and R. S. Seymour, of robbing them, was withdrawn yester-day, upon failure of the complainants to appear, but Justice Seaman wouldn't have it that the women should be turned loose, hence the arresting officer was cited to produce warrants charging the couple with vagrancy. By request of counsel for the defense the cases were continued until February 28, and the women were released on bonds of \$100 each to answer.

Charged With Rape.

HELD WITHOUT BAIL

Bentley Must Answer to the Charge of Murder.

A Strong Prima Facie Case Made Out by the Prosecution.

Testimony Showing That He Had Designs on Other Widows.

The Open Manner in Which Bentley Dis cussed the Chances of His Wife's Early Demise Brought Out-His Future Plans.

"In the opinion of the Court, the peo ole of the State of California have made prima facie case against the defendant, who will be held to answer to the charge set forth in the complaint without

bail. Such was the announcement made by Justice Seamans at the conclusion of the examination of Henry Bentley, accused of murdering his wife, the late Mrs. Nordholt-Bentley, by administering poison premeditatedly and with

felonious purpose. The third day of the Bentley examination was begun at 2 o'clock yesterday afternoon, when the remaining wit nesses for the State were examined.

At 3:30 o'clock, the State having finished, rested their case, and the at-torney for the defense waived the privilege of introducing witnesses or other testimony, and, after the an-anouncement of Assistant District Attorney Skinner that the State rested, the defense expressed its willingness to submit its case to the Court, which resulted as above stated.

The evidence introduced yesterday

was immaterial except as to the identi-fication of Henry Bentley as to his having been the husband of Mrs. Bentley, by the heirs and the housekeeper; also the identification of Bentley by Tim Horgan as being the same person who, in his presence, asked the clerk in Heintzman's drugstore for poison, and repeating the conversation that oc-curred between Bentley and the clerk, in which the clerk warned Bentley of its deadly nature and Bentley's answer that he "knew what he was doing." Dr. Kannon was put upon the stand

to testify to the condition of the heart of the deceased, which he had professionally examined, stating that the organ in question was found by him to be in a normal condition, taking into consideration the age of the woman at her death, and testifying as to its color being natural for such an organ after. death,

S. Celestine, a livery stable keeper was placed on the stand to testify to certain conversations Bentley had had with him, the most important feature of the deposition being ordered stricken out, or not allowed to be divulged, on objection being raised by the attorneys for defense.

As to the testimony allowed, Celestine told how Bentley had been quite friendly with him, often coming to his stable and relating incidents in his every-day life; that Bentley came to him some weeks before his marriage to Mrs. Nordbolt, and prevailed more him. him some weeks before his marriage to Mrs. Nordholt, and prevailed upon him (Celestine) to procure for him suitable clothing for the wedding; that, in explanation, Bentley had told him of his engagement to a rich old widow—Mrs. Nordholt. "But," Bentley explained, "I don't care anything about the woman; it is the money and property I am after. I will secure that. The old woman won't live very long, and then

woman won't live very long, and then I can take the money and property and enjoy myself with the young women." Bentley continued: "Oh, I've a nice, soft thing of it, don't you think?"
Celestine tried to shame Bentley, but
he kept on talking of his plans, and

said; "I will have plenty of money after I am married, and will then come and buy out your partner, and we will have a fine time. I may have to fight the heirs, but I have the old lady all right. I know when I have a good thing. I will get away with the property and the old woman, too."

This last expression caused considerable discussion, inasmuch as Mr. Goodrich the atterney for the defence could

rich, the attorney for the defense, could not elicit a direct explanation as to the inference as to "getting away with the old lady," hence it was stricken out.

Bentley, Celestine said, came to him after he was married, and, in a conver-sation, said: "I am fighting the heirs, but I'll win." He continued: "Bentley also said to me at that time, and in speaking of his wife, 'Oh she is too old for me; I shall get the property and the money; the old lady will die soon, then ''ll come and buy out your partner.'' Willigrode, who, in his evidence be-

fore the Coroner's inquest admitted that he had entered into a conspiracy with Bentley to defraud the Nordholt heirs, "because there was money in it," and he was "looking for just such snaps," was next placed upon the witness stand.

The evidence given at the Coroner's inquest was repeated with variations, which was substantially, that Willigrode, who was a real estate agent, col-lector, etc., was to search the records in the register of deeds' office for prop-erty owned by Mrs. Nordholt-Bentley. This was after Mrs. Nordholt-Bentley had made over all the known property to her. husband, who, however, was had made over all the known property to her husband, who, however, was "suspicious" of the old woman, and believed she was "holding out" on him.

By the terms of this agreement between Bentley and Willigrode the latter was to have one-half of all property found when secured by Bentley; that Bentley had said to him, "Follow me and you'll wear diamonds."

The story of Willigrode at the Coroner's friquest as to a proposition of

oner's inquest as to a proposition of Bentley after the death of his wife, in Bentley after the death of his wife, in which another rich widow was picked out as a victim, was retold in part, but being objected to was stricken out, notwithstanding the plea of Assistant District Attorney Skinner, that the State and society as a whole desired to "show that this man Bentley, who possessed an abnormal mania for securing marriage with rich widows, possessed inherent characteristic that had cropped out at every period of his misguided life."

The story was to the effect that Willigrode was to secure for Bentley an introduction to a certain rich widow who, it was thought, would prove susceptible to his wiles, when her property would

be secured and the old woman got away with, and both should go to Europe and

wear more diamonds.

The admission of Willigrode that he had entered into these schemes made his 'testimony worthless, but it tended-to show the depravity of individuals who were permitted to run loose and prey upon the world and society with-out restraint and with a show of re-

spectability. When Justice Seamans delivered his decision and remanded the prisoner, the face of Bentley became as pallid as his yellow skin would permit, and his nervousness became more decided. During the entire examination Bent-

ley had shown signs of nervousness, but became quite worked up during the last hours in anticipation of the re-sults, as he must have realized that the evidence introduced by the State was sufficient to hold him for trial.

As he started down the stairway to go to the County Jail he looked around over the crowd with an attempt to appear unconcerned, but paled before the gaze of so many, in the faces of none of whom he could detect a ray of sym-

Heretofore Bentley has been allowed the privileges of the corridors and the jailor's office, and ate at the same table with his keepers. It is now proposed to protest against such privileges, and if continued the children of the murdered woman themselves will make such a vigorous kick as will be heard further

THE WHITTIER SCHOOL.

The Investigation by the Senate Committee Concluded.

The Legislators Will Go North With New Light as to a Good Many Points-The Witnesses That Were

Examined.

The State Senate committee appointed to investigate the workings of the State Reform School at Whittier will probably return to the North with new light as to a good many points. In consequence, a report may be expected from them adverse to the pass age of the bill under consideration, which contemplates separating the girls' department from the school, and removing it to Santa Clara county The fullest investigation was instituted by the committee, and responded to by the management. The result is that the committee no longer seems favor able to the proposed change, but has undoubtedly discovered sound reasons

against it that will be presented to the Legislature with force and effect. To Senator Ford, acting chairman of his committee, together with his col-league, Senator Biggy, is due much credit for the thorough and searching manner in which the investigation has been conducted. He has been thorough, patient, skillful, and evidently conscientious in prosecuting the inquiry. On Saturday, at Whittier, the gentlemen began their work of going over the books of the institution, which they seem to have found in a satisfactory condition. They then proceeded to the taking of testimony, and upon this task they were busily engaged up to 12 o'clock yesterday. The witnesses examined were: Hervey Lindley and H. Z. Osborne; Mrs. Anna S. Averill, Father A. Montanerelli, Gen. E. P. Johnson, Col. H. G. Otis and A. E. Pomerov, also Trustees Stern and Gibson, Su-

roy: also Trustees Stern and Gibson, Superintendent Walter Lindley, Capt, A F. Mackey, Mrs. Dr. Lindley, Miss de Wolf and Paul Botiller, the last being a boy inmate of the school.

favor of the bill referred to by its pro moter, to separate the home for boys from that of the girls, had been that the proximity of the two sets of quarters tended to promote immoral practices, on this point was concentrated a rig-orous inquiry. In no instance was any proof adduced that there had been any intimacy between the boys and girls Taking a broader view of the matter the subject of the school's usefulness from the standpoint of a financial investment was touched upon and further inquired into.

On the method of commitment some On the method of commitment some discussion arose, and witnesses were asked for their opinion in the matter. Some thought that the power of sentence should be confined to the superior courts, and that police judges and country justices should not have that authority, as they were more liable to make mistakes. Others believed in fix-ing some limit or degree of offense that should be deemed sufficient cause for

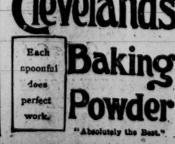

commitment to the school.

Summing up at the close, Senator Ford remarked: "Senator Biggy and myself came down here strongly impressed with the idea that the girls should be taken away. I have not met with a single witness who has agreed with us." Speaking generally, he continued: "The reformation of a boy is entirely different from that of the girl. Take the boy who has gone astray and commitment to the school. entirely different from that of the girl. Take the boy who has gone astray and start him aright and he feels that the whole world is willing to help him. With the girl it is different. Once down it is very hard for her to regain her lost footing, and the world is generally slow to assist her."

The investigation was concluded with the examination of Col. Otis, who was on the stand for an hour and a half.

on the stand for an hour and a half. His testimony was taken in detail by the stenographer, and will be incorporated in the committee's report to the

The party then drove from the main building to the girls' quarters for a brief inspection. The committee returned to the city by the 1 o'clock trans. Their future movements, before re-turning to the Capital, will be recorded in The Times from day to day.

SHOES.

We received yesterday a new invoice of our celebrated Dongola Kid, patent leather aip \$2.50 shoes. These are trade winners. For the price there never was a better shae built. We have a beautiful line of ladies' shoes at \$8.50 and another line at \$5. We call your particular attention to these because they are meritorious and splendid value for the

Our line of men's shoes starting at \$2 for an all-calf shoe, not veal calf on split leather, and rising at intervals of 50c a pair for the different qualities until you strike Hanan & Sons' \$8 that we are now selling at \$5. We are overloaded in men's shoes and are selling them at actual

We are pushing our shoe department to the front, and if meoitorious footwear at proper prices interests you, you will facilitate us in our task.

Men's Furnishings

Too much cannot be said for this department. You can buy laundried shirts from us for 50c, or one for \$1.50. The one at 50c is equal to any 75c shirt in this town. It is laundried as well as the \$1.50 one. Considering that you pay 10c for laundering a shirt, any sort of a shirt ought to be very reasonable at 40c, which would be its cost unlaundried. We are the sole agents for the line of "Never Rip" Overshirts in cotton and wool, and comprise all sorts of working shirts, tourists and negligees. The manufacturer guarantees that if they rip with reasonable wear, we will refund the money. We are selling two lines of men's underwear at \$1: it is the natural gray, full fashioned, no seams; intrinsic value \$2.50; the drawer's are shaped. The other is a line of Vicuna value \$2.50; the drawers are shaped. The other is a line of Vicuna underwear which we considered a special value at \$1.50, at which we sold them. Men's light and dark tecks, scarfa and four-in-hands, 50c, in silk, crepe and satin effects, large in size, and made of handsome materials, intended to retail from 75c to \$1.

Dress Goods.

Every express brings us new effects, and they are perfectly lovely in design and quality; we have received some French pattern suits, exclusive novelties, one suit of a kind, no duplicates. A lady purchasing from us will not be confronted with her double. These patterns come in wool and silk-and-waol, with neat, exquisite designs, and in two-toned and varigated effects. We have marked them with a view to s howing you that we can sell the finest goods manufactured, and at prices that will convince you at once that we are headquarters for novelties and dress goods. Besides the novelties shown in dress goods we have received some of the best values that it has ever been our lot to handle in medium-priced dress goods. We are showing some very handsome effects at 50c; all dress goods below that price will be found at our domestic dress goods counter. We have received some new challies, our stock is entirely new as we did not carry over a single piece, and no old chestnuts will be worked off. Our dress goods stock was so reduced that we really felt ashamed of the bare condition of our fixtures. Our buyers have instructions to fill us up with everything from A to Z.

DILLIN.

For six months we have been selling Cheney Bros.' silks at 75c a yard. The Greatest Dress Goods House in Los Angeles advertises them for \$1.00, but we have a value that beats even Cheney Bros.' at 75c; they are in our window at 50c. It is the best silk for the money that you ever uought in your life at any time, at any place, or from any one. The patterns are the newest, and is the best value today in the United States. You will find in our silk stock this season a large variety of the newest things in novelties and staples. The variety, the quality and

the price will bring the trade.

DOMESTICS

We don't find it necessary to lie to the public to do business. We don't have to tell you that we do four times as much business as any other house in town. Our business is sone upon the variety, the quality and the price of our merchandise. We received yesterday by express a line of new crinkled Scotch Ginghams; we have priced them at 37% c a yard; you will find them elsewhere at 50c; they are perfect beauties; would be pleased to have you see them.

We don't crow about our Linen Department, for it is no better than any other in the house, but we sell the largest hotels throughout the country their linens, and that is pretty fair evidence of the fact that we are able to sell you. We have two or three different styles of Flannel-

are able to sell you. We have two or three different styles of Flannel-ettes, ranging in price from 10 to 15c a yard. Our line of Scotch Ging-hams at 20c a yard, is sold by our San Francisco house at 25c. In Prints and Cotton Dress Goods of all sorts we have received cases of all the new designs and materials, and as we devote 120 feet to this department we feel you are nearly sure of being suited. For a special leader tomorrow in our Flannel Department we will offer you a line of French Flannels, in stripes, at 40c a yard; the same goods sold all over

Misscellaneous.

We would like to call your attention to new styles of Corsets that are just at hand; also to a number of novelties in Printed Cotton and Lisle Hose that we are disposing of at very much under market prices.

You will find a large variety of spleadid values acattered all over the
house and marked out for special inducements.
